NO. 24.

HORSES AT THE TRACK

Runners, Trotters and Pacers.

There Will Be a Big String Before the Fair Opens.

A Journal reporter chaperoned by C. P. Farrell drove out to the race track yesterday and witnessed the improvement that have been made to the grounds under the direction of President Blaney and Superintendent Stone. The paint and whitewash have been liberally applied and the buildings and fences look splendid.

There has been considerable work done on the grounds. Several old sheds have been torn down and other buildings erected. The removal of the pasture to the ground has been the chief thing that has added beauty to the grounds is the new lawn in front of the grandstand.

A thorough large amount of money has been expended the society is practically the same but due to so much to the liberality of the late lamented President Stone to the subscriptions of citizens and the careful management of the fair last year.

The track is now in nearly perfect condition and is improving every day. There are not many horses at the track at present but several big strings will arrive in a day or two. There will be several races from Butte despite reports that have been persistently circulated to the contrary.

A Journal man made a tour of the stalls.

The first horse in the row is the celebrated Pegasus owned by C. P. Farrell. He holds the track records not only here but at Sutterville and Carson. Pegasus is now eight years old, but is still the pace a mile in 2:17. He is by Brown Jug.

Wing is the occupant of the next stall. He is a pretty five year old mare by Lunder out of Import Bee. Wing has won from three quarters of a mile to any distance her opponent.

The third stall is occupied by another prize horse, son of Dexter Prince. He is a five year old stallion trained by J. Q. Anderson on the scale. He has won from a quarter of a mile to a mile and a half. He is a very headstrong and vicious animal.

Lead to the O.K. is a new runner, but not a good one. He is about eight years old and is a gelding. He is owned by J. Q. Anderson on a horse. He is a very old in the business and knows his place. He is off-hand. In an Amos room is a handsome little foal named Nellie that has been around the circuit several times and it is claimed by her master can pick the mare in any time. Nellie has a small son half bull dog that will be

presented to President Flanigan as soon as he is able to leave home. The doglet already answers to the name of Senator.

Two of Theo Winters' horses are here already, Uncle Giles and Miss Lake. The former is a thoroughbred stallion, eight years old. He is by El Rio Rey out of Hattie Humphries.

Miss Lake is a two-year-old runner by Lord Lake out of Dollie M. "Old Lake" who has been training racers for the past two hundred years, and Patsy Wheeler are looking after the Winters horses.

Bob Earleton has a promising two-year-old named Aeronaut E. It is a son of Uncle Giles, out of Brown Pet, but the boys at the track say that is by Balloon, out of Sight and dammed by everybody. Aeronaut E is being trained by Ed Sonntag.

Brown & Blaney's trotting stallion Lochinvar has arrived from Grass Valley. He is by Director, son of old Director. His dam is Venturas, sister of Ventura. John Blaney is officiating as trainer. Lochinvar has a record of 2:20 in the fifth heat.

J. H. Breasley is having a string of three racers trained. Lady Norwin is a four-year-old runner by Rey Del Sierra, dammed by Miss Ryan. Lady May is a full sister of Lady Norwin. The third runner is by Sinfax, Jr. Windy and Walter Gilbert are training and jockeying the Farrell horses, Frank will drive them himself.

DOLOROUS WAILS ARE AGAIN HEARD

How Pleasant It Would Be If Brethren Dwelt Together in Unity.

In the San Francisco papers which arrived in Reno last evening there appeared under the caption of "Army and Navy Orders" the announcement that Captain Hollis C. Clark had been detailed as professor of military science and tactics at the University of Nevada.

The Journal of yesterday morning contained the same dispatch.

This was a news item, published as soon as it took place. It is a fact that Captain Clark has for some time been mentioned for this position but no action was taken until Monday in detailing him.

An erstwhile paper of repute which is long on Irish divinity existence in a house of unsavory reputation on "first street" devoted scarce head space to alleging that The Journal dispatch was a week old.

It is indeed amusing to witness the squirms and contortions of agony which The New Journal is inflicting upon its degenerate and lifeless former rival.

If the Gazette would accept the groove into which it has been forced by its own idiosyncrasy and mismanagement and strive to live a useful and readable life in its limited sphere of influence, it would receive The Journal's fraternal support but it will not have it so. It must complain, snarl, rave and wail its more successful contemporary to an extent that is amusing but which is beginning to pall upon the sense of humor.

Unless the Gazette Publishing Company which is composed largely of respectable and competent business and professional men of this city—save in one very patent respect—see fit to curb the avian management of their paper, it will become the painful duty of The Journal to itself undertake the task.

Up to this time The Journal has made no attempt to wean away what support remains to the Gazette. It remains with the First street people whether or not there will be radical change in the live and let live methods of The Journal.

Coming in Shoals.

At least a hundred University students have already arrived and are beginning to livvy up the town. Both the Cottage and Lincoln Hall are filling up rapidly. All signs point to a record-breaking year in the way of attendance.

GRAY, REID & CO.

SOCIAL AND PERSONAL

Items About People Who Travel to and Fro.

James Ford is in from Eureka.

L. O. Overton is down from Truckee.

F. D. Black is down from Virginia City.

Jack Stanton of Mason Valley is in town.

Chas. Wagner is a visitor from Mason Valley.

A. P. Rogers of Berlin is a guest at the Riverside.

R. D. Reed came down from the Comstock yesterday.

Ernest Harris has returned from a visit to San Francisco.

Mr. and Mrs. Wm. Smiley of Elko spent yesterday in Reno.

J. D. Bradley of Palisade is spending a few days in this city.

Mr. and Mrs. D. W. Earle of San Francisco are guests at the Palace.

Miss Lizzie Baker has returned to Yerington after visiting friends in this city.

C. C. McCabe and wife of Omaha, Nebraska, are guests at the Riverside.

Miss Alice Ede has gone to Elko, where she will teach in the public schools.

Prof. Kaye, principal of the Winnemucca schools, spent yesterday in this city.

C. E. Hudson and family of Dayton have removed to Reno, where they will reside.

Thos. W. Norcross has returned to Portland, Oregon, after a visit to his sons in this city.

Guy Walts left last night for Elko, where he has been chosen to be the principal of the Elko High School.

Dr. J. E. Stubbs has returned from Fresno, where he attended the funeral of his brother-in-law, W. T. McNulty.

Sol Hilp and family have returned from an extended visit to White Pine, where Mr. Hilp has mining interests.

W. W. Bryon and L. L. Crockett of this city have been prospecting in Eldorado canyon near Yerington the past week.

The Northern Lines Being Extended.

Extension work on the main line of the Nevada-California-Oregon railroad is steadily progressing. The grades have advanced several miles and the engineer corps is far ahead of them.

The first consignment of steel rails will arrive from the east in about thirty days and track laying will begin immediately.

By the fifteenth of October the line will probably be open and trains running regularly to Madeline, a station to be established several miles beyond Van Loan's.

The extension of the Sierra Valleys line is also being pressed. It is hoped to have the end of the track in Mohawk Valley before winter sets in.

Improvements to the Telephone System.

Manager McFarlin of the Sunset T. & T. Co. informs The Journal that the line to Wadsworth will be completed in a few days, after which that town will be poled and wired. The construction crew will then rebuild the line between Carson and Virginia, so as to take in Silver City and Dayton.

The Wadsworth exchange will start with about forty phones.

In order to accommodate the increased business in the local exchange, an extension will shortly be built to the switchboard.

SPECIAL THIS WEEK.

Alarm clocks, guaranteed for one year for 95 cents at Frank Golden's jewelry store, corner Second and Virginia streets.

NEWS OF THE DAY

Telegraphed from All Quarters.

Peace Terms to be Signed.

(Special to The Journal.)

Peking, Aug. 27.—Chinese envoys received edicts today giving power to sign peace terms of powers and final settlements are near.

Czar may Interfere.

(Special to The Journal.)

London, Aug. 27.—A dispatch from St. Petersburg says the Czar is now inclined to interpose in South Africa and will discuss matters with the Kaiser on his coming visit.

S. P. to Improve Road.

(Special to The Journal.)

New York, Aug. 27.—From official sources it was learned that the Southern Pacific will spend \$10,000,000 in improving its lines.

The proposed tunnel through the Sierras on Central Pacific will be cut. Work will cover years.

Custom Officials Bribed.

(Special to The Journal.)

Nogales, Ariz., Aug. 27.—Chinese witnesses declare they paid large sums to custom officials to be permitted to cross the border.

On the Verge of War.

(Special to The Journal.)

Paris, Aug. 27.—A semi-official statement issued today shows that all relations between Turkey and France are broken off and the condition is as near war as possible without actual hostilities. France will take no further action at present.

TELEGRAPHIC FLASHES

Diplomatic relations between France and Turkey have ceased.

The 28th triennial convocation of the Grand Encampment of Knights Templar is being held at Louisville, Kentucky.

The American Forestry Association is in session at Denver.

Yesterday the steel trust acquired a controlling interest in the Bethlehem steel works.

In a recent skirmish with the Boers the British lost nine killed and twenty-four wounded.

There was little new in the strike situation yesterday.

GOOD POINTER FOR RENOITES

Region Tributary to this City Should Be Colonized.

The following in the Lovelock Tribune should give the people of Reno something to think about:

There is much to reflect upon in the Government's recent disposal of land in Oklahoma. Some few thousand homesteads were disposed of by lot. There were many thousands of people who had made application that could not possibly be supplied. These people are still seeking homes and no doubt would be glad of the opportunity to move West.

It is a strange fact that there are many thousands of acres of fine land as can be found on the globe in this inter-mountain region that is being overlooked by settlers. It is true that it is arid and must be reclaimed by irrigation. But this can be done and is no great undertaking.

Only a short distance north of Reno, in the Honey Lake Valley is a vast tract of land stretching as far as the eye can see across the sagebrush desert. The Nevada, California & Oregon railway runs for the full length of this valley. All this land can be reclaimed and a plan has been developed to bring water onto the desert. But for some reason work has been delayed.

It is only a question of time till the millions of acres of land along the line of that road will be brought under cultivation. The world needs to know of the opportunities that await settlers in this section. Would it not be a good idea for some one interested in the development of this country to get the names of those disappointed homesteaders in Oklahoma? Could not the Reno Board of Trade make a ten-strike in this direction?

The town of Susanville, off to the west side of Honey Lake Valley, 30 miles from the railroad, shows what can be done with irrigation. It is one of the most beautiful and prosperous towns in the west. There is room for many more towns like that in the country north of Reno.

TERSE AND TO THE POINT

Little Bits of Items, but Still Worthy of Mention.

Senator Flanigan purchased another

carload of Canadian bucks yesterday.

M. Missevich has removed his confectionery store to The Journal building.

A meeting of the Washoe County Medical Association will be held this evening in the office of Dr. Thomas.

Breasley & Unlacker's Depot Hotel at Verdi is open and ready for business. It has been newly furnished throughout.

Mr. Meyer, cattle buyer for H. Levy, came in from the east yesterday with a trainload of sheep. He will ship a trainload from Loyaltown today.

A farewell dance was given Wednesday night at Lovelock in honor of the students of the State University and Reno High School from that place.

Charley Leeper's, Wilfred L. is stepping nicely at Sacramento. It is probably that the animal will make a try for some of the purses during the State Fair.

The Journal was in error in stating yesterday that the lot at the south-eastern corner of Second and Virginia streets was held for \$15,000. It can be purchased for \$5500.

The finishing touches are being put to the thirty-ton smelter at Judge Haydon's Bullion mine. The first run of ore will be made next week. The smelter is of the Vulcan type.

Miss Belle Rullison of this city and Fred W. Small will be married at 4 o'clock on Thursday afternoon of next week in the Congregational Church by Rev. C. E. Chase.

Several teams are on the road hauling stone from the old prison wall for the chemical laboratory and hospital. Rapid progress is being made with the buildings. They will be ready for occupancy in about ten months.

Dr. Pinniger, while in San Francisco recently, had a talk with Dicky Jose, who is singing at the Orpheum. He wished to be remembered to all his Reno friends. Dicky expects to go east this fall with a company of his own.

The Rubber Necks Enjoyed it Hugely.

When the eastbound train pulled out of Reno yesterday morning three passengers were left behind. One was of masculine gender. He had gone over to a Commercial Row restaurant for a bucket of coffee and some sandwiches.

Two ladies accompanied him to see that he neither got short change from the cashier nor flirted with a waitress.

They were a good half block away when the train began to move, but the ladies gathered up their skirts and started in pursuit with pater familias bringing up the rear leaving a trail of hot coffee and an occasional sandwich to mark his path.

Happily the train stopped at the water tank and the trio lost nothing but a few provisions and some dignity.

Last Chance Mine Looking Away up.

Superintendent A. E. Murdock came in from the Last Chance mine yesterday. He says that there are ten men employed there, the works running day and night.

The incline is down over 150 feet, all in ore. The footwall gauge is being followed down. Some little water is now being encountered, but it is all ledge moisture and water level is not believed to have been reached yet.

A new incline will be started in a day or two some distance away and a connection run to the present workings, partly to supply air and partly to determine the extent of the pay chute.

Although the lead has not been prosecuted for the past three weeks, the ore

that is in sight evidences that the values are holding their own. It is, of course, impossible to tell how wide the lead is.

Notice to Ladies.

When you are looking for some nice dress goods or French flannels, black silk skirts, ostrich boas, silk waists, silk under skirts, black lace suits, homelinen, linen goods, or anything that is up-to-date in the dry goods line. Why not call on George Lamb, he carries a sample stock of these goods from three of the largest houses on the coast. Call and see him at Room 7, Smith building, Reno, Nevada.

The Agency Over.

"Kid" Lewis' hearing was finally completed yesterday. He was bound over to await action of the grand jury on the charge of robbery.

Ball was fixed at \$500, which was not furnished. It is understood that his attorneys are trying the habeas corpus act.

The Garden City Wheelmen, whose racing team recently gave Reno an opportunity to clinch the coast championship, has disbanded. A majority of the members have joined the Merchants' club, an athletic association of San Jose.

Will Race no More.

The Garden City Wheelmen, whose racing team recently gave Reno an opportunity to clinch the coast championship, has disbanded. A majority of the members have joined the Merchants' club, an athletic association of San Jose.

Charley Leeper's, Wilfred L. is stepping nicely at Sacramento. It is probably that the animal will make a try for some of the purses during the State Fair.

LARGE ENROLLMENT IN PUBLIC SCHOOLS

Organization Is Completed and Recitations Have Begun in All the Grades.

Yesterday was a busy day in the school department. The work of enrollment continued and nearly all the new pupils were assigned to their classes. There are 1175 children in the kindergarten. By the first of next week a bus will be running to convey the tots to and from their homes, which will doubtless largely increase the attendance.

It has been suggested that the principal school building in this city is without a name, being generally termed "The Brick." The suggestion above alluded to is that some public spirited citizen endow the school with a fund sufficient to equip a manual training department. A grateful community would doubtless bestow upon the school the name of the donor.

and recitations will be in progress in all departments today.

Miss Jameson, teacher of the first grade, is ill and her position is being temporarily filled by Miss May Nichols. A teachers' meeting will be held tomorrow afternoon at 2 o'clock.

Nelson & Williams Mine.

The shaft in the Pole Star is being steadily sunk. The lead has dipped away and the workings are now in footwall material carrying low values. At a depth of seventy-five feet a drift will be run to pick up the lead.

Nelson & Williams have recently received several flattering offers for the mine which is believed to be the best property in the district outside of the Reno Star.

The Wheelmen's Ball.

Arrangements have been completed for the party to be given the Reno Wheelmen and their ladies in the club house Friday evening. It will be free to members and ladies and no others will be admitted. Schwert's orchestra will render the music. It is expected that this will be a very pleasant and largely attended event.

Peggy Injured.

Peggy, the well-known pacing mare at the track, has a badly bruised leg, the result of an accident while training. It is possible that Dr. Jacobs, the government veterinary surgeon, will not permit her to enter the races at the State Fair.

OF INTEREST TO EVERY ONE

Watches of all descriptions repaired by one of the best watchmakers on the coast all work guaranteed and prices reasonable. When your watch needs repairing go to Golden's jewelry store.

TERRIBLY MANGLED

An Unknown Man Killed.

Is Ground to Pieces Beneath a Freight Train.

An unknown man was run over by a freight train about 10:45 last night at the Sierra street crossing and killed. He was a young man, probably only 30 years of age, smooth shaven and dressed like a workman.

He carried nothing with him that gave any clue to his identity.

The young man had been in town several days and gave out the impression that he was employed in a saw mill near Truckee.

He attempted to board a westbound freight train, but fell between the cars. Both legs were cut off close to the body.

The body was taken to the Morgue. Respiration continued for nearly an hour, but it was futile to attempt to revive him.

An inquest will be held this afternoon at 2 o'clock.

An Excursion Next Sunday.

A novel feature will be introduced by Nevada-California-Oregon Company during its excursion next Sunday. A balloon ascension and parachute jump will be given at Pumas Junction.

The aeronaut of the occasion will be R. J. Earleton, who has made more thrilling voyages in mid-air than any other aeronaut in the country. He will go as high as the machine will carry him and make a spectacular leap.

There will be ample refreshments on the grounds. Plentiful supplies will be sent out and an expert caterer will be on the grounds.

The train will leave Reno at 2 p. m. and return at 8.

Carriage for the Kids.

If enough parents desirous of sending their little ones to the kindergarten will contribute to having a bus, their children will be called for at their homes.

Parents wishing to make this arrangement will please address or leave word with

MRS. S. H. WHEELER, Reno, 225 Sierra street.

PRIDE RUINS MANY EYES.

Why do so many complain of their eyes, simply because they need glasses? In many cases pride keeps one from wearing them. Let pride go and save your eyes by going to Golden's jewelry store where you will find the only graduate optician in the State.

Do You Want Printed Stationery...

If you do, then you want the lowest price and guaranteed first-class work. We have one of the largest and best equipped book and job printing of fices in the State of Nevada.

JOHN H. DENNIS, Editor

REPUBLICAN SUSPICION.

THE Reno Journal makes a great mistake in trying to bring politics into the Schley court martial. The case should not be prejudiced before hand. If Schley has been derelict the facts will be brought out, and a great party should not be burdened with his shortcomings. If he was honest in the performance of his duties at Santiago the whole country will unite in doing him honor, and not alone the Democratic party.—Lovelock Tribune.

The Tribune has a keen eye for mares' nests if it has discovered any politics in the Journal's comments upon the Sampson-Schley imbroglio. This paper has from a sense of justice expressed its views concerning a cowardly attack upon a brave officer by a man who was leagues away from the battle which was won by his second in command. It is a notable fact, however, that the Republican papers mostly lean to the side of the man who wasn't there, but the best they can do is to apologize for him, because the administration promoted the absentee in preference to the officer in temporary command at the critical time. The Republicans know that there is no profitable politics in the affair for them and wisely content themselves by making the best they can of a bad matter. But none of them with the exception of the Tribune has admitted that any political capital could be manufactured for the Democrats by the vindication of Admiral Schley. But the fleeing criminal sees danger in every bush and the Tribune man thinks, or thinks he thinks, he discerns political discomfiture in a non-political matter which in fact is only a natural and humane act of justice to a persecuted and innocent man. The "shortcomings" of Admiral Schley was his short method of demolishing the Spanish fleet and the "great party" alluded to has no desire, either to be "burdened with" or be benefited by the greatest naval exploit of any age, and so far as the Journal is concerned its patriotism would have accorded the same meed of praise to the hero who won the battle, if he had been a Republican instead of a Democrat. Unfortunately for himself, however, he happened to be a Democrat, otherwise he would now enjoy the higher rank in the navy now held by his cowardly defamer.

WHO WILL PAY?

THE Des Moines (Ia.) Register notes that "Congress is to be asked during the next session to set aside all money received from public land sales in fifteen western States and Territories for a fund to be used in constructing reservoirs in the semi-arid region," and asks, "Who will reimburse the government?" The same one that reimburses the government when it blows a rock out of the mouth of a harbor, or when it makes an appropriation for the improvement of the navigation of a stream. The same one that pays back to the government the cost of building a fort on the frontier. The same one that reimburses the government every year for two, three or four hundred million dollars it spends that the business of the country may be carried on in order and peace. If the government spends the money that way, it will be in order for it to demand tolls of those who receive the water until it is fully reimbursed, and in the meantime some thousands or tens of thousands of acres of valuable land will be added to the domain of the United States. That is, the value will be added, because the land without the water is worthless. He who makes two blades of grass grow where only one grew before is greater, we are told, than he who founds a city. That government that in its domain converts some thousands of acres of land to fruitful fields where before not one blade of grass grew is a great and far-seeing government, worthy to be entrusted with the business affairs of a great people.—Salt Lake Tribune.

The above excellent article is from the Salt Lake Tribune. Its only mistake is the ridiculously low estimate of the number of acres of now worthless land that would be made productive and valuable by such a water storage system as the national government is urged to inaugurate for the reclamation of our arid and semi-arid lands. Instead of aggregating the acres by "thousands and tens of thousands," millions and tens of millions would be nearer the mark.

It is conservatively estimated that there are seventy-five millions of acres of land that can be rendered productive by a thorough system of water storage and irrigation, as is made possible by the winter snow and water fall and the topography of the country where artificial means for moisture is required. Nevada alone could furnish many times over the maximum of the Tribune's estimate and have enough left to encourage private enterprise in the reclamation of land which will now afford scant subsistence for a colony of jackrabbits, but which at the cost of a little money and labor could be rendered as productive as the choicest acres in rain moistening sections of the middle western States.

THE reference to modification of the tariff schedules in the platform of the Iowa Republicans indicates that that declaration was not dictated by a manager H.

NEW ENGLAND'S TURN.

UP TO now New England has not suffered from the late strike troubles, but the indications are that she will experience them with considerable force in the near future. The proposed cut in the wages of the operatives of the Fall River cotton mills of 14 per cent, beginning the first day of September, has aroused public interest throughout all of the New England States. The cotton manufacturers at Fall River advance no specific reason for the cut-down, but permit it to be understood that they regard the step necessary in order to continue the mills in operation at a profit, under existing conditions.

But the Fall River operatives are well organized into unions. They have promptly taken into consideration the proposed changed conditions and have deliberated over them, reaching the common conclusion that they will not accept the reduction. Of course, that means a strike, if the managers persist in their reported intention, and it seems to be accepted that they will. They know as well as do the operatives that the cost of living has not been so high for years as regards the necessities, which are so enormously taxed by the Dingley tariff bill, and that there is but little probability of any tariff change for the better. There was no margin enough, so that the proposed cut means nothing less, as they view it, than literally "starvation wages." And so New England is almost certain to have a taste of the fruit, which is the natural growth of a tree manured by the excrements of trust protection, and cultivated by the political gardeners of a Republican administration.

IF mineral developments continue as they have in the last few years, it will be difficult to class Washoe, whether as a mining or agricultural country. It has already a number of the best paying mines in the State, with scores of most encouraging prospects which promise profitable returns. Agricultural products have increased in perhaps less proportion, but sufficient to warrant the prediction that Washoe will continue in the lead in that line over all other counties in Nevada. This isn't brag. It is merely recognition of the blessings bestowed by Providence upon the favored people of Washoe county.

THEY are having an embarrassment of riches in Texas where they don't know what to do with the oil that is freely gushing from the ground. It is not impossible that the time may come when petroleum will be a drug in the market. Anything like that should be prevented or the heirs of the present oil kings may find it necessary to retire from the millionaire business.

REPUBLICAN newspapers are hard to please. The Chicago Record-Herald says that the endorsement of the Kansas City platform by the Iowa Democrats will lose the party thousands of votes. If our memory serves us correctly, it said the same thing of the Ohio Democratic platform because it omitted what the Iowa Democrats sanctioned.

IN view of the fact that the coal trust made lots of money by the last strike in selling all of their refuse at top prices, it does not seem unreasonable that they are provoking another demonstration of the same kind.

THERE is no indication that the Boers are going to be accommodating to the extent of allowing Gen. Kitchener to carry out his proclamation of banishing them, without first catching them. That makes his boasted purpose somewhat difficult.

PRESS COMMENT.

Those who credit Mark Hanna with the intention of putting up good money for the organization of Hanna colored clubs in the South are not acquainted with his business sagacity. The only money he is likely to put up in that section will be to pay directly for delegates to the national convention, and he won't do that unless he thinks their votes will be necessary to carry out his plans.—Silver State.

The three sons of the late General Robert Williams are all officers in the army, and the only married daughter is the wife of a gentleman who also holds a military commission. The family would seem to be on a war footing.—S. F. Bulletin.

Many a small boy has been deterred from attacking another diminutive lad by the presence of a big brother. That appears to be the matter with Venezuela and Colombia just now—as they look northward.—S. F. Bulletin.

Sampson, of course, can prove an alibi; but unfortunately Schley can't.—Utah State Journal.

CHURCH DIRECTORY

LEGAL ADVERTISEMENTS

TOWN ORDINANCE.

Ordering the Paving of Certain Streets.

(Adopted July 18, 1901.)

Whereas, it appears to the satisfaction of this Board that notice of the hearing of the petition of T. K. Stewart and others for the grading and paving of Commercial Row from Center to Sierra street, Virginia street from Commercial Row to the Iron Bridge over the Truckee River, and Second street from Virginia to Sierra street in the Town of Reno, and the adoption of plans and specifications by publication as required by the order of this Board.

And whereas said matter coming on to be heard at the time mentioned in said notice, parties interested therein appeared and the proof and evidence that said plans and specifications are suitable and proper, it is ordered that said plans and specifications for the grading and paving of said portions of said streets be and the same are adopted as now on file with the Clerk of this Board except as to the curbing and that the same be recorded.

And whereas it further appears that it is advisable and to the public interest and benefit, that Commercial Row from Center street to Sierra street in said town be graded and paved according to said plans and specifications. It is ordered that the last above mentioned portion of said streets be graded and paved according to Class A of said plans and specifications as now adopted. That thirty days notice of the letting of contracts to grade and pave said portions of said streets according to said plans and specifications be given by advertisement in the Reno Journal, a newspaper published at Reno, Nevada, that such contract will be let to the lowest responsible bidder who will give satisfactory guarantee to keep the same in repair five years subject to the right of any property owner fronting on said street to make said improvement according to Class A of said plans and specifications in front of his property by private contract to be approved by this Board.

It is further ordered that the cost of grading and paving that portion of said streets fronting and abutting private property be paid by the owners of the abutting property according to the number of feet fronting or abutting on said improvement, and that the cost thereof be assessed accordingly against said property, and be a tax and lien thereon, and that the cost of grading and paving all street and all crossings and intersections included within that portion of said streets hereby ordered to be graded and paved, be paid by and out of the public funds.

By order of the Board of County Commissioners acting for the benefit of the Town of Reno.

W. H. A. POGG, Clerk.

W. H. A. PIKE, District Atty.

NOTICE OF FORFEITURE

To A. O'Brien, Co-Owner, you are hereby notified that we have expended the sum of \$635.92 for the year 1900 and \$617.75 for the year 1901 to date making a total of \$1253.67 for labor and improvements upon the Willow mine situated in Jumbo Mining District, County of Washoe, State of Nevada—and within ninety days after this notice by publication, if you fail or refuse to contribute your proportion of such expenditure as Co-Owner, your interest in said claim will become the property of the subscribers under Section 3224, Revised Statutes of the United States.

Date of first publication, August 27, 1901.

W. H. KENT, GEORGE SCHISSLER.

Proposals for Privileges—Nevada State Agricultural Society.

Sealed bids, endorsed on envelope "Proposals for Privileges" as the case may be—will be received by the Secretary, until 1 o'clock, p. m., September 7, 1901, for the following privileges:

Restaurant.
Fruit, Candy and Nut Stand.
Ice Cream and Ice Cream Soda at Grand Stand.
Fruit, Candy and Nut Stand at Pavilion.
Ice Cream, Ice Cream Soda and Soft Drinks at Pavilion.
Cold Lunch Stand at Pavilion.
Music, state number of pieces.
Bids for the privileges at the Pavilion will be considered separately or collectively.
Address all bids to the Secretary, LOUIS BEVELL, Secretary.

ANNUAL MEETING.

The stockholders of the California Fly Syrup Company are hereby notified pursuant to the By-Laws of said company that the annual meeting of its stockholders will be held in its office, in J. J. Quinn's store in block F, Reno, Washoe county, Nevada, on MONDAY, THE 26th DAY OF AUGUST, 1901,

at the hour of 2 p. m., for the election of five trustees to serve for the ensuing year and transact such other business of said company as may lawfully come before said meeting.
J. J. QUINN, Secretary.
Reno, August 7, 1901.

POSTPONEMENT.

The date for holding the regular annual meeting of the Syrup of Figs Company has been postponed until Monday, October 7, 1901.

DISSOLUTION NOTICE.

ALL AROUND THE STATE

A Few Gleaned Paragraphs of Nevada News.

The Wadsworth schools will open Monday.

Winnemucca will be lighted by electricity within two months.

Miss Ida Cooper of Dayton has been elected principal of the Silver City school.

All the feed in Sand Springs Valley, Nev., has been destroyed by grasshoppers.

The Wells Jockey Club will have two days' racing this fall, with purses amounting to \$500.

Miss Marion S. Snow of Eastonville, Kan., has been appointed teacher at the Carson Indian school.

Professor Start has been elected principal of the Austin schools at a salary of \$150 per month.

Mary E. Anderson, of Eureka, widow of Wm. E. Anderson, has been granted a pension of \$12 per month.

Thomas F. Melody has been appointed postmaster at Willow Creek, Humboldt county, vice H. H. McColey, removed.

Ike Nelson, who was accidentally shot while on a hunting trip near White Rock, Elko county, died, Wednesday.

Professor A. L. Start, formerly principal of the Elko county high school, has been elected principal of the Austin school.

Extensive improvements are being made on the State capitol building at Carson. The structure is now being newly roofed.

An inch of rain fell at Belmont, Nye county, in twenty minutes. This is believed to be the State record for precipitation.

A bulletin just issued by the Census office shows that during the year 1900 438 people died in Nevada—250 males and 188 females.

Wm. Ash, an old resident of Dayton, died Thursday. He was engaged in the saloon business and was a pioneer of Western Nevada.

A Wells saloon was burglarized a few nights ago, the robber getting away with a few dollars which had been left in the till.

Ray Richard has resigned his position in the Carson mint to accept a more lucrative one with a mining company in Costa Rica.

Some fine specimens of grapes were cultivated at Uhl's ranch near Washoe lake this year. The vines bore heavily and the fruit is of the first quality.

Fifty thousand rainbow trout from the hatchery at Tallac, Lake Tahoe, were taken to Riverton, Cal., last week and planted in the American river.

Ploche Record: On Wednesday night, a little after 10 o'clock, the town was visited by an earthquake shock. It shook the houses slightly and warned the wicked to prepare for a hereafter.

Silver State Louis Dean, beef buyer for the Western Meat Company, is in the eastern part of the State looking for cattle to feed. He has bought a good many and will begin shipping from Lovelock the middle of September.

According to the Carson News the Knights of Pythias of Sacramento are arranging for a big time during the State Fair, and an invitation has been extended to members of the order in Nevada to join them in the celebration.

Deputy Sheriff Rose has on exhibition at the Sheriff's office a cucumber measuring four feet from tip to tip. It is the largest ever seen hereabouts and is entitled to the State championship in the cucumber-raising line, we believe—Silver State.

There are several amateur detectives in town. One evening this week one of them came into town post haste after an officer to investigate another alleged case of killing cattle. It turned out that the party was butchering his own steer.—Wells Herald.

Reveille. On Monday of last week a flood tore down Italian Creek canyon at Bullion, in which the Kattenhorn ranch is located, and caused considerable damage. Forty tons of hay was washed down the canyon and several head of cattle were killed by the flood.

FREE OF CHARGE.

Any adult suffering from a cold settled on the breast, bronchitis, throat or lung troubles of any nature, who will only one bottle given to one person, sent at S. J. Hodgkinson, will be presented with a sample bottle of Boschee's German Syrup, free of charge, and none to children without order from parents.

No throat or lung remedy ever had such a sale as Boschee's German Syrup in all parts of the civilized world. Twenty years ago millions of bottles were given away, and your druggists will tell you its success was marvelous. It is really the only Throat and Lung Remedy generally endorsed by physicians. One 75 cent bottle will cure or prove its value. Sold by dealers in all civilized countries.

THE ARTIST TAILOR.

W. Schur, the artist tailor, began business in Reno in a small way a year and a half ago and has built up a splendid trade. He is a tailor for many of the most prominent people in this city. His work always gives satisfaction. Mr. Schur makes a specialty of ladies' tailoring. He worked six years at this business in Paris. 214

MINING IN THIS STATE

Culled News of Nevadas' Most Important Industry.

It is reported today that a standard drilling rig will be shipped from Los Angeles to Elko before the end of this month.—Independent.

Joe Farren, superintendent of the Glasgow and Western Exploration Company, has been engaged as consulting engineer by the Plutone Mining Company with properties at Tintic, Utah. The new appointment will not affect Mr. Farren's relations with the Glasgow and Western.—White Pine News.

The spools of wire cable for the Lucky Girl mine were loaded and started for White Rock Monday and Tuesday. The four battery blocks, weighing seven tons each, are still on the depot platform.

A gold bar of bullion shipped by W. V. Watson from the Joana mine, at Cherry Creek, brought on the market \$20.40 per ounce. This surpasses anything ever produced in the line of gold in the State of Nevada as far as we can learn, and in fact is right around the pure stuff.

There is no truth in the report that H. A. Cohen has been discharged as manager of the De Lamar mining properties. He is still looking after good copper mines.

The White Rock placers in Elko county are said to be producing \$17 per day to the man. A flume is being constructed and sluicing will soon be commenced.

Over five hundred mining locations have been made in Washoe county since the Wedekind mine was discovered. A good deal of work has been done on many of them.

ASTOUNDED THE EDITOR.

Editor S. A. Brown, of Bennettville, S. C., was once immensely surprised. "Through long suffering from Dyspepsia," he writes, "my wife was greatly run down. She had no strength or vigor and suffered great distress from her stomach but she tried Electric Bitters which helped her at once, and after using four bottles, she is entirely well, can eat anything. It's a grand cure, and its gentle laxative qualities are splendid for torpid liver." For indigestion, Loss of Appetite, Stomach and Liver troubles it's a positive, guaranteed cure. Only 50 cents at S. J. Hodgkinson's drug store.

PIANOS ON EASY TERMS.

And at prices to suit any one. The prices range from two hundred and twenty-five dollars up—twenty-five dollars down and the balance in ten dollar monthly installments.

These pianos are all fully guaranteed and have the latest improved action and are the style upright. No one on earth sells better pianos or better-toned pianos, or gives more value for the money than C. J. Brookins. Brookins has lived and sold pianos in Reno for thirty years. Why not buy your piano of Professor Brookins, who knows all about pianos and has made them a great study for thirty years? Call at 224 Virginia street, C. J. Brookins' store.

TO SAVE HER CHILD

From frightful disfigurement Mrs. Nannie Gallagher, of La Grange, Ga., applied Bucklen's Arnica Salve to great sores on her head and face, and writes its quick cure exceeded all her hopes. It works wonders in Sores, Bruises, Skin Eruptions, Cuts, Burns, scalds and Piles. 25 cents. Cure guaranteed by S. J. Hodgkinson, druggist.

WHAT A TALE IT TELLS.

If that mirror of yours shows a wretched, sallow complexion, a jaundiced look, moth patches and blotches on the skin, it's liver trouble, but Dr. King's New Life Pills regulate the liver, purify the blood, give clear skin, rosy cheeks, rich complexion. Only 25 cents at S. J. Hodgkinson drug store.

NOW IS YOUR CHANCE.

Blue Flame oil stoves, refrigerators, ice cream freezers, hammocks and other summer goods will be slaughtered in order to make room for the big stock which I purchased while in the east.

Told by Pain

If you have pains you should look after them quickly. Pain shows something is wrong. The sharper the pain the more danger there is in delay. There are thousands of women to-day who are bearing awful pain almost continually, rather than tell a physician about the shooting pains in their lower abdomen, about the agony of falling of the womb and the distress of leucorrhoea. They let the months pass and their trouble becomes harder to cure and more distressing. But modest women can secure exemption from the embarrassment of a private examination. When pain tells them of danger they can cure themselves by the use of

WINE OF CARDUI

in the privacy of their homes. You can be cured without embarrassing publicity. With these facts before you there is no reason for the delay which is increasing your misery and wasting the days of your life. Why not stop the pain today?

Belen, N.M., March 8, 1900.

I have used one bottle of Wine of Cardui and one package of Theobald's Black-Draught. Before I began to take your medicine I had pains in my back, hips, lower bowels and my arms. Sometimes I thought I would go blind. My head ached and I was so weak I could hardly walk across the floor. Now I can only feel a little of the pain in my side and I am going to use your medicine until I get cured, for I believe they will certainly cure me. I have been married twelve years and am the mother of seven children. I thank you for your wonderful medicine and what it has done for me.

MATILDA SMITH.

RENO MERCANTILE COMPANY

DEFENCE OF SOCIALISM

An Address by Frances Willard on This Theme.

This address by Miss Frances Willard has been submitted for publication by a reader of The Journal. Frances Willard, late president of the National Woman's Christian Temperance Union, in her address before the national convention assembled in Buffalo, October 20th, declared as follows in behalf of socialism:

Look about you; the products of labor are on every hand; you could not maintain for a moment a well-ordered life without them; every object in your room has in it, for discerning eyes, the mark of ingenious tools, and the pressure of labor's hands. But is it not the cruelest injustice for the wealthy whose lives are surrounded and embellished by labor's work to have a superabundance of the money which represents the aggregate of labor in any country, while the laborer himself is kept steadily at work that he has no time to acquire the education and refinements of life that would make him and his family agreeable companions to the rich and cultured. The reason why I am a Christian socialist comes in just here.

I would take, not by force, but by the slow process of lawful acquisition through better legislation as the outcome of a wiser ballot in the hands of men and women, the entire plant that we call civilization, all that has been achieved on this continent in the four hundred years since Columbus wended his way hither, and make it the common property of all the people, requiring all to work enough with their hands to give them the finest physical development, but not to become burdensome in any case, and permitting all to share alike the advantages of education and refinement. I believe this to be perfectly practicable. Indeed, that any other method is simply a relic of barbarism.

I believe that competition is doomed. The trusts whose single object is to abolish competition, have proved that we are better without than with it, and the moment that a corporation controls the supply of any product, they combine. What the socialist desires is that the corporation of humanity should control all production.

Beloved comrades, this is the frictionless way. It is the higher way; it eliminates the motives for a selfish life; it enacts into our every day living the ethics of Christ's gospel; nothing else can bring the glad day of universal brotherhood.

Plea Made for Irrigation.

There are 100,000,000 acres of irrigable public lands.

They need storage reservoirs to make them available homes.

Let the government build the great reservoirs and main line canals necessary to make water available for these irrigable public lands.

Let the cost of such work be added to the cost of the lands, to be repaid to the government by the settlers in ten or twenty annual installments, without interest.

Give the settler at least two years' time in which to get started before he is called upon to make any payment.

Reserve the land for which water is thus made available for actual settlers only who will go on the land and cultivate it and build their permanent homes there.

It is necessary that the government should build the works requiring capital; it can leave the settlers to construct and dig the smaller canals, which they can do without capital.

Whenever the settler who goes upon the public land today, or in the future, can set his plow in the ground and have the water follow the furrow, then the opportunities will have been created which will be seized upon by the millions of industrious men to create prosperous homes in what is today an arid wilderness.—George H. Maxwell in National Irrigation for August.

Purchases Property.

The Journal understands that Richard Ryland has purchased the Saunders lot on Virginia street between First and Second streets. The lot has a frontage of 25 feet and a depth of 140 feet. The consideration was \$4000.

MEETING NOTICE

There will be a meeting of the Owl Social Club Wednesday evening at the office of Dr. Coffin. All members are requested to be present. Business of importance will be transacted.

T. R. BIGGS, President.
C. A. COFFIN, Secretary. a272t

THEIR SECRET IS OUT.

All Sadville, Ky., was curious to learn the cause of the vast improvement in the health of Mrs. S. P. Whitaker, who had for a long time, endured untold suffering from a chronic bronchial trouble. "It's all due to Dr. King's New Discovery," writes her husband. "It completely cured her and also a severe attack of Whooping Cough." It positively cures Coughs, Colds, La Grippe, Bronchitis, All Throat and Lung troubles. Guaranteed bottles 50 cents and \$1. Trial bottles at S. J. Hodgkinson drug store.

YOU CAN BUY

Nice new up-to-date piano on easy terms. \$25 cash and \$10 a month in installments. A new stock just arrived. Fully guaranteed.

C. JEFF BROOKINS,
222 Virginia street.

CROPS AND WEATHER

Government Reports Received from Every County.

Weather—The weather throughout the week was much cooler than that of the preceding week, but there were no damaging frosts reported. The mean temperature, as determined from the records of the Weather Bureau stations at Carson City and Winnemucca, was 23 degrees below normal, or an average daily deficiency of 3 degrees. Showers and heavy rains were general in the north, east and south sections during the first days of the week, and in some localities in the eastern section, roads were damaged by cloud-bursts. The latter and greater part of the week was very clear and the percentage of sunshine was high.

Crops—Rains in the north, east and south sections during the early part of the week did considerable damage to cut hay, and in a few cases damaged out oats and wheat to some extent, but were of great benefit to gardens, alfalfa pasture and range. Wheat, oats, barley and alfalfa are being harvested in the east, north and south sections, and good yields are reported from all crops except that of wheat in the northern section, which in some localities, was damaged to some extent by the continued dry weather while it was maturing. Grain and hay harvests are practically over in the central and west sections, and some threshing is being done. Wild and bunch grasses have started up well since the late rains and range feed is fair. Cattle horses and sheep are doing well and are in good condition. Grasshoppers in the southern part of the State are damaging fruit and vegetables.

New potatoes are being used and their size and quality indicate that the potato crop will be above the average.

Water is generally plentiful for irrigation and the prospect for good range feed and alfalfa pasture during the fall is very promising.

SOME FACTS.

The largest enclosure of deer is said to be the royal park in Copenhagen—4200 acres.

An ostrich which was lately dissected in London had in its stomach a small prayer book.

The rock of Gibraltar has four huge reservoirs, capable of holding 5,000,000 gallons of water.

Palms never live more than 250 years. Ivy has been known to live 450, chestnut 800, oak 1600 and yew 2800 years.

Taking into consideration the number of ships that are on the seas and navigable waters of the world it is estimated that about 1,700,000 of the world's population are constantly afloat.
